RE: City of Roy Limited Amendment to SMP

Dear Ms. Van Zwahlenburg:

On May 23, 2016 the Roy City Council adopted Ordinance 938, thereby amending the City's critical areas regulations and Shoreline Master Program.

The critical areas amendments were proposed in order to fulfill the requirements of the City's GMA Periodic Update. They directly respond to input provided by Ecology staff during the drafting of the amendments.

The SMP amendment reflects the adoption of the updated critical areas code (see pages 24-25 of the Ordinance 938) and eliminates one provision that is no longer relevant given corresponding amendments to the wetland designation provisions in RCC 10-5A-1 (see page 10 of Ordinance 938). The remainder of the SMP is remain unchanged.

Provided with this cover letter is the amendment submittal documentation listed in WAC 173-26-110 that was previously identified by Ecology staff as being warranted for this particular limited amendment. Should you require additional documentation, please do not hesitate to contact me, at jboers@harbornet.com, or Debbie Dearing, Roy City Clerk-Treasurer, at roycityhall@cityofroywa.us or 253-843-1113.

Sincerely,

Jeff Boers
Contract City Planner
